* Document for sale by Superintendent of Documents.

† Distribution by office issuing document, free if unaccompanied by a price.

‡ Printed for official use.

NOTE.—Nearly all of the Departments of the Government make a limited free distribution of their publications. When an entry shows a * price, it is possible that upon application to the issuing office a copy may be obtained without charge.

Explanation

Words and figures inclosed in brackets [] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

SALES OF GOVERNMENT PUBLICATIONS

The Superintendent of Documents, Washington, D. C., is authorized to sell at cost of paper and printing, plus 10 per cent, any United States public document in his charge the distribution of which is not otherwise provided for.

Publications can not be supplied free to individuals nor forwarded in advance of payment.

Publications entered in this catalogue that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document. A double dagger (§) indicates that the document is printed for official use. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the Bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing Department, Bureau, or Division, and the title of the publication. If the publication is numbered, give the number also. Every such particular assists in quick identification. Do not order by the Library of Congress card number.

The accumulation of publications in this Office amounts to several millions, of which over two million are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shop-worn. In filling orders the best copy available is sent. A general price-list of public documents is not available, but lists on special subjects will be furnished on application.

MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to each Senator, Representative, Delegate, Resident Commissioner, and officer in Congress; to designated depositories and State and Territorial libraries if it is selected by them; to substantially all Government authors; and to as many school, college, and public libraries as the limited edition will supply.

Subscription price to individuals, 50c. a year, including index; foreign subscription, 75c. a year. Back numbers can not be supplied. Notify the Superintendent of Documents of any change of address.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalogue cards of the Library of Congress are given at the end of entries for the more important documents. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Librarian of Congress, not to the Superintendent of Documents.

INDEX

An Index to the Monthly catalogue is issued at the end of the fiscal year. This contains index entries for all the numbers issued from July to June, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalogue at the end of the year should be careful to retain the numbers received monthly, as duplicate copies can not be supplied.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, Washington, D. C., by coupons, postal money order, express order, or New York draft. Currency may be sent at sender's risk.

Postage stamps, foreign money, defaced or smooth coins, positively will not be accepted.

For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his Office in sets of 20 for \$1.00. Address order to Superintendent of Documents, Government Printing Office.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Porto Rico, Samoa, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of annual reports, Monographs, Professional papers, Bulletins, Water-supply papers, chapters and volumes of Mineral resources of the United States, folios of the Topographic atlas of the United States and topographic maps that bear descriptive text, and folios of the Geologic atlas of the United States and the World atlas of commercial geology. A wholesale rate has been established for topographic and geologic folios, so that a discount of 40 per cent from the retail price is now allowed on all orders the net cost of which amounts to \$5.00 or more. This rate applies on an order for either maps or folios alone or for maps and folios together, but does not apply to the folios sold at 5c each on account of damage by fire. For maps and topographic and geologic folios address the Director of the Geological Survey, Washington, D. C. Other publications, with the exception of Monographs, are free at the Survey as long as the supply lasts and are also sold by the Superintendent of Documents at the price indicated. Orders for such publications as are for sale (excepting maps and folios) should be sent to the Superintendent of Documents, Washington, D. C.

Apr. 1923; by W. W. Husband.—Directory of labor officials in United States and foreign countries.

NOTE.—The Review is the medium through which the Bureau publishes the results of original investigations too brief for bulletin purposes, notices of labor legislation by the States or by Congress, and Federal court decisions affecting labor, which from their importance should be given attention before they could ordinarily appear in the bulletins devoted to these subjects. One free subscription will be given to all labor departments and bureaus, workmen's compensation commissions, and other offices connected with the administration of labor laws and organizations exchanging publications with the Labor Statistics Bureau. Others desiring copies may obtain them from the Superintendent of Documents, Washington, D. C., at the prices stated above.

SMITHSONIAN INSTITUTION

NOTE.—In a recent price-list the Smithsonian Institution publishes this notice: "Applicants for the publications in this list are requested to state the grounds of their requests, as the Institution is able to supply papers only as an aid to the researches or studies in which they are especially interested. These papers are distributed *gratis*, except as otherwise indicated, and should be ordered by the *publication numbers* arranged in sequence. The serial publications of the Smithsonian Institution are as follows: 1, Smithsonian contributions to knowledge; 2, Smithsonian miscellaneous collections; 3, Smithsonian annual reports. No sets of these are for sale or distribution, as most of the volumes are out of print. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are distributed without charge to public libraries, educational establishments, learned societies, and specialists in this country and abroad; and are supplied to other institutions and individuals at the prices indicated. Remittances should be made payable to the 'Smithsonian Institution.' The Smithsonian report volumes and the papers reprinted in separate form therefrom are distributed *gratuitously* by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but many of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington, D. C. The Institution maintains mailing-lists of public libraries and other educational establishments, but no *general mailing-list of individuals*. A library making application to be listed for Smithsonian publications should state the number of volumes which it contains and the date of its establishment, and have the endorsement of a Member of Congress."

The annual reports are the only Smithsonian publications that are regularly issued as public documents. All the others are paid for from the private funds of the Institution, but as they are usually regarded as public documents and have free transmission by mail they are listed in the Monthly catalogue.

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Charts of the Great Lakes and connecting waters and St. Lawrence River to the international boundary at St. Regis, of Lake Champlain, and of the New York State canals are prepared and sold by the U. S. Lake Survey Office, Old Custom-house, Detroit, Mich. Charts may also be purchased at the following U. S. engineer offices: 710 Army Building, New York, N. Y.; 467 Broadway, Albany, N. Y.; 540 Federal Building, Buffalo, N. Y.; and Canal Office, Sault Ste. Marie, Mich. A catalogue (with index map), showing localities, scales, prices, and conditions of sale, may be had upon application at any of these offices.

A descriptive bulletin, which supplements the charts and gives detailed information as to harbors, shore lines and shoals, magnetic determinations, and particulars of changing conditions affecting navigation, is issued free to chart purchasers, upon request. The bulletin is revised annually and issued at the opening of navigation (in April), and supplements thereto are published monthly during the navigation season.

Complete sets of the charts and publications may be seen at the U. S. engineer offices in Duluth, Minn., Milwaukee, Wis., Chicago, Ill., Grand Rapids, Mich., Cleveland, Ohio, and Oswego, N. Y., but they are obtainable only at the sales offices above mentioned.

* Document for sale by Superintendent of Documents.

† Distribution by office issuing document, free if unaccompanied by a price.

‡ Printed for official use.

NOTE.—Nearly all of the Departments of the Government make a limited free distribution of their publications. When an entry shows a * price, it is possible that upon application to the issuing office a copy may be obtained without charge.

Explanation

Words and figures inclosed in brackets [] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

SALES OF GOVERNMENT PUBLICATIONS

The Superintendent of Documents, Washington, D. C., is authorized to sell at cost of paper and printing, plus 10 per cent, any United States public document in his charge the distribution of which is not otherwise provided for.

Publications can not be supplied free to individuals nor forwarded in advance of payment.

Publications entered in this catalogue that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document. A double dagger (‡) indicates that the document is printed for official use. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the Bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing Department, Bureau, or Division, and the title of the publication. If the publication is numbered, give the number also. Every such particular assists in quick identification. Do not order by the Library of Congress card number.

The accumulation of publications in this Office amounts to several millions, of which over two million are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shop-worn. In filling orders the best copy available is sent. A general price-list of public documents is not available, but lists on special subjects will be furnished on application.

MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to each Senator, Representative, Delegate, Resident Commissioner, and officer in Congress; to designated depositories and State and Territorial libraries if it is selected by them; to substantially all Government authors; and to as many school, college, and public libraries as the limited edition will supply.

Subscription price to individuals, 50c. a year, including index; foreign subscription, 75c. a year. Back numbers can not be supplied. Notify the Superintendent of Documents of any change of address.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalogue cards of the Library of Congress are given at the end of entries for the more important documents. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Librarian of Congress, *not* to the Superintendent of Documents.

INDEX

An Index to the Monthly catalogue is issued at the end of the fiscal year. This contains index entries for all the numbers issued from July to June, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalogue at the end of the year should be careful to retain the numbers received monthly, as duplicate copies can not be supplied.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, Washington, D. C., by coupons, postal money order, express order, or New York draft. Currency may be sent at sender's risk.

Postage stamps, foreign money, defaced or smooth coins, positively will not be accepted.

For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his Office in sets of 20 for \$1.00. Address order to Superintendent of Documents, Government Printing Office.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Porto Rico, Samoa, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of annual reports, Monographs, Professional papers, Bulletins, Water-supply papers, chapters and volumes of Mineral resources of the United States, folios of the Topographic atlas of the United States and topographic maps that bear descriptive text, and folios of the Geologic atlas of the United States and the World atlas of commercial geology. A wholesale rate has been established for topographic and geologic folios, so that a discount of 40 per cent from the retail price is now allowed on all orders the net cost of which amounts to \$5.00 or more. This rate applies on an order for either maps or folios alone or for maps and folios together, but does not apply to the folios sold at 5c. each on account of damage by fire. For maps and topographic and geologic folios address the Director of the Geological Survey, Washington, D. C. Other publications, with the exception of Monographs, are free at the Survey as long as the supply lasts and are also sold by the Superintendent of Documents at the price indicated. Orders for such publications as are for sale (excepting maps and folios) should be sent to the Superintendent of Documents, Washington, D. C. For topographic sheets see next page.

Topographic sheets

NOTE.—The Geological Survey is making a topographic map of the United States. The sheets of which it is composed are projected without reference to political divisions, and are designated by some prominent town or natural feature found on them. Three scales are ordinarily used, 1:62,500, 1:125,000, and 1:250,000. These correspond, approximately, to 1 mile, 2 miles, and 4 miles to 1 linear inch, covering, respectively, average areas of 230, 920, and 3,700 square miles. For some areas of particular importance special large-scale maps are published. The usual size, exclusive of the margin, is about 17.5 inches in height by 11.5 to 16 inches in width, the latter varying with the latitude. A description of the topographic map is printed on the reverse of each sheet.

More than two-fifths of the area of the country, excluding Alaska, has been mapped, every State being represented. Connecticut, Delaware, the District of Columbia, Maryland, Massachusetts, New Jersey, Ohio, Rhode Island, and West Virginia are completely mapped. Sheets of the regular size are sold by the Survey at 10c. each; but in lots of 50 or more copies, whether of the same sheet or of different sheets, the price is 6c. each. The discount is allowed on all orders the net cost of which amounts to \$5.00 or more and applies on an order for either maps or folios alone or for maps and folios together, but does not apply to the folios sold at 5c. each on account of damage by fire.

SPECIAL ARTICLES.—Some effects of operation of California minimum wage law; by Louis Bloch.—Example of arbitration in San Francisco newspaper publishing industry; by David Weiss.—Individual and collective bargaining under Mexican State labor laws; by Martha Dobbin.—Conciliation work of Department of Labor, June, 1923; by Hugh L. Kerwin.—Statistics of immigration, May, 1923; by W. W. Hubbard.—Immigration during year ending June 30, 1923.—Immigrant aid, State activities, by Mary T. Waggaman.

NOTE.—The Review is the medium through which the Bureau publishes the results of original investigations too brief for bulletin purposes, notices of labor legislation by the States or by Congress, and Federal court decisions affecting labor, which from their importance should be given attention before they could ordinarily appear in the bulletins devoted to these subjects. One free subscription will be given to all labor departments and bureaus, workmen's compensation commissions, and other offices connected with the administration of labor laws and organizations exchanging publications with the Labor Statistics Bureau. Others desiring copies may obtain them from the Superintendent of Documents, Washington, D. C., at the prices stated above.

TOPOGRAPHY DIVISION

NOTE.—Since February, 1908, the Topography Division has been preparing rural-delivery maps of counties in which rural delivery is completely established. They are published in two forms, one giving simply the rural free delivery routes, starting from a single given post office, sold at 10 cents each; the other, the rural free delivery routes in an entire county, sold at 35 cents each. A uniform scale of 1 inch to 1 mile is used. Editions are not issued, but sun-print copies are produced in response to special calls addressed to the Disbursing Clerk, Post Office Department, Washington, D. C. These maps should not be confused with the post route maps, for which see Monthly catalogue for February, 1923, page 528.

SMITHSONIAN INSTITUTION

NOTE.—In a recent price-list the Smithsonian Institution publishes this notice: "Applicants for the publications in this list are requested to state the grounds of their requests, as the Institution is able to supply papers only as an aid to the researches or studies in which they are especially interested. These papers are distributed *gratis*, except as otherwise indicated, and should be ordered by the *publication numbers* arranged in sequence. The serial publications of the Smithsonian Institution are as follows: 1, Smithsonian contributions to knowledge; 2, Smithsonian miscellaneous collections; 3, Smithsonian annual reports. No sets of these are for sale or distribution, as most of the volumes are out of print. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are distributed without charge to public libraries, educational establishments, learned societies, and specialists in this country and abroad; and are supplied to other institutions and individuals at the prices indicated. Remittances should be made payable to the 'Smithsonian Institution.' The Smithsonian report volumes and the papers reprinted in separate form therefrom are distributed *gratuitously* by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but many of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington, D. C. The Institution maintains mailing-lists of public libraries and other educational establishments, but no *general mailing-list of individuals*. A library making application to be listed for Smithsonian publications should state the number of volumes which it contains and the date of its establishment, and have the endorsement of a Member of Congress."

The annual reports are the only Smithsonian publications that are regularly issued as public documents. All the others are paid for from the private funds of the Institution, but as they are usually regarded as public documents and have free transmission by mail they are listed in the Monthly catalogue.

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Charts of the Great Lakes and connecting waters and St. Lawrence River to the international boundary at St. Regis, of Lake Champlain, and of the New York State canals are prepared and sold by the U. S. Lake Survey Office, Old Custom-house, Detroit, Mich. Charts may also be purchased at the following U. S. engineer offices: 710 Army Building, New York, N. Y.; 467 Broadway, Albany, N. Y.; 540 Federal Building, Buffalo, N. Y.; and Canal Office, Sault Ste. Marie, Mich. A catalogue (with index map), showing localities, scales, prices, and conditions of sale, may be had upon application at any of these offices.

A descriptive bulletin, which supplements the charts and gives detailed information as to harbors, shore lines and shoals, magnetic determinations, and particulars of changing conditions affecting navigation, is issued free to chart purchasers, upon request. The bulletin is revised annually and issued at the opening of navigation (in April), and supplements thereto are published monthly during the navigation season.

Complete sets of the charts and publications may be seen at the U. S. engineer offices in Duluth, Minn., Milwaukee, Wis., Chicago, Ill., Grand Rapids, Mich., Cleveland, Ohio, and Oswego, N. Y., but they are obtainable only at the sales offices above mentioned.

* Document for sale by Superintendent of Documents.

† Distribution by office issuing document, free if unaccompanied by a price.

‡ Printed for official use.

NOTE.—Nearly all of the Departments of the Government make a limited free distribution of their publications. When an entry shows a * price, it is possible that upon application to the issuing office a copy may be obtained without charge.

Explanation

Words and figures inclosed in brackets [] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

SALES OF GOVERNMENT PUBLICATIONS

The Superintendent of Documents, Washington, D. C., is authorized to sell at cost of paper and printing, plus 10 per cent, any United States public document in his charge the distribution of which is not otherwise provided for.

Publications can not be supplied free to individuals nor forwarded in advance of payment.

Publications entered in this catalogue that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document. A double dagger (§) indicates that the document is printed for official use. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the Bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing Department, Bureau, or Division, and the title of the publication. If the publication is numbered, give the number also. Every such particular assists in quick identification. Do not order by the Library of Congress card number.

The accumulation of publications in this Office amounts to several millions, of which over two million are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shop-worn. In filling orders the best copy available is sent. A general price-list of public documents is not available, but lists on special subjects will be furnished on application.

MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to each Senator, Representative, Delegate, Resident Commissioner, and officer in Congress; to designated depositories and State and Territorial libraries if it is selected by them; to substantially all Government authors; and to as many school, college, and public libraries as the limited edition will supply.

Subscription price to individuals, 50c. a year, including index; foreign subscription, 75c. a year. Back numbers can not be supplied. Notify the Superintendent of Documents of any change of address.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalogue cards of the Library of Congress are given at the end of entries for the more important documents. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Librarian of Congress, *not* to the Superintendent of Documents.

INDEX

An Index to the Monthly catalogue is issued at the end of the fiscal year. This contains index entries for all the numbers issued from July to June, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalogue at the end of the year should be careful to retain the numbers received monthly, as duplicate copies can not be supplied.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, Washington, D. C., by coupons, postal money order, express order, or New York draft. Currency may be sent at sender's risk.

Postage stamps, foreign money, defaced or smooth coins, positively will not be accepted.

For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his Office in sets of 20 for \$1.00. Address order to Superintendent of Documents, Government Printing Office.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Porto Rico, Samoa, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

NOTE.—Realizing that current statistics are highly perishable and that to be of use they must reach the business man at the earliest possible moment, the Department has arranged to distribute advance leaflets twice each month to those subscribers who request them. One set of these leaflets is issued about the 20th of the month, giving such information as has been received up to that time, and another set of sheets is mailed at the end of the month giving those figures received since the 20th. The information contained in these leaflets is also published in Commerce reports issued weekly by the Foreign and Domestic Commerce Bureau. The advance sheets will be mailed free of charge to all subscribers to the Survey who request them. Such request should be addressed to the Bureau of the Census, Department of Commerce, Washington, D. C. Subscriptions, however, should be sent to the Superintendent of Documents, Washington, D. C., at the prices stated above.

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of annual reports, Monographs, Professional papers, Bulletins, Water-supply papers, chapters and volumes of Mineral resources of the United States, folios of the Topographic atlas of the United States and topographic maps that bear descriptive text, and folios of the Geologic atlas of the United States and the World atlas of commercial geology. A wholesale rate has been established for topographic and geologic folios, so that a discount of 40 per cent from the retail price is now allowed on all orders the net cost of which amounts to \$5.00 or more. This rate applies on an order for either maps or folios alone or for maps and folios together, but does not apply to the folios sold at 5c. each on account of damage by fire. For maps and topographic and geologic folios address the Director of the Geological Survey, Washington, D. C. Other publications, with the exception of Monographs, are free at the Survey as long as the supply lasts and are also sold by the Superintendent of Documents at the price indicated. Orders for such publications as are for sale (excepting maps and folios) should be sent to the Superintendent of Documents, Washington, D. C. For topographic sheets see next page.

Topographic sheets

NOTE.—The Geological Survey is making a topographic map of the United States. The sheets of which it is composed are projected without reference to political divisions, and are designated by some prominent town or natural feature found on them. Three scales are ordinarily used, 1:62,500, 1:125,000, and 1:250,000. These correspond, approximately, to 1 mile, 2 miles, and 4 miles to 1 linear inch, covering, respectively, average areas of 230, 920, and 3,700 square miles. For some areas of particular importance special large-scale maps are published. The usual size, exclusive of the margin, is about 17.5 inches in height by 11.5 to 16 inches in width, the latter varying with the latitude. A description of the topographic map is printed on the reverse of each sheet.

More than two-fifths of the area of the country, excluding Alaska, has been mapped, every State being represented. Connecticut, Delaware, the District of Columbia, Maryland, Massachusetts, New Jersey, Ohio, Rhode Island, and West Virginia are completely mapped. Sheets of the regular size are sold by the Survey at 10c. each; but in lots of 50 or more copies, whether of the same sheet or of different sheets, the price is 6c. each. The discount is allowed on all orders the net cost of which amounts to \$5.00 or more and applies on an order for either maps or folios alone or for maps and folios together, but does not apply to the folios sold at 5c. each on account of damage by fire.

* Document for sale by Superintendent of Documents.

† Distribution by office issuing document, free if unaccompanied by a price.

‡ Printed for official use.

NOTE.—Nearly all of the Departments of the Government make a limited free distribution of their publications. When an entry shows a * price, it is possible that upon application to the issuing office a copy may be obtained without charge.

Explanation

Words and figures inclosed in brackets [] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

SALES OF GOVERNMENT PUBLICATIONS

The Superintendent of Documents, Washington, D. C., is authorized to sell at cost of paper and printing, plus 10 per cent, any United States public document in his charge the distribution of which is not otherwise provided for.

Publications can not be supplied free to individuals nor forwarded in advance of payment.

Publications entered in this catalogue that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document. A double dagger (‡) indicates that the document is printed for official use. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the Bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing Department, Bureau, or Division, and the title of the publication. If the publication is numbered, give the number also. Every such particular assists in quick identification. Do not order by the Library of Congress card number.

The accumulation of publications in this Office amounts to several millions, of which over two million are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shop-worn. In filling orders the best copy available is sent. A general price-list of public documents is not available, but lists on special subjects will be furnished on application.

MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to each Senator, Representative, Delegate, Resident Commissioner, and officer in Congress; to designated depositories and State and Territorial libraries if it is selected by them; to substantially all Government authors; and to as many school, college, and public libraries as the limited edition will supply.

Subscription price to individuals, 50c. a year, including index; foreign subscription, 75c. a year. Back numbers can not be supplied. Notify the Superintendent of Documents of any change of address.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalogue cards of the Library of Congress are given at the end of entries for the more important documents. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Librarian of Congress, *not* to the Superintendent of Documents.

INDEX

An Index to the Monthly catalogue is issued at the end of the fiscal year. This contains index entries for all the numbers issued from July to June, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalogue at the end of the year should be careful to retain the numbers received monthly, as duplicate copies can not be supplied.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, Washington, D. C., by coupons, postal money order, express order, or New York draft. Currency may be sent at sender's risk.

Postage stamps, foreign money, defaced or smooth coins, positively will not be accepted.

For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his Office in sets of 20 for \$1.00. Address order to Superintendent of Documents, Government Printing Office, Washington, D. C.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Porto Rico, Samoa, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TOPOGRAPHY DIVISION

NOTE.—Since February, 1908, the Topography Division has been preparing rural-delivery maps of counties in which rural delivery is completely established. They are published in two forms, one giving simply the rural free delivery routes, starting from a single given post office, sold at 10 cents each; the other, the rural free delivery routes in an entire county, sold at 35 cents each. A uniform scale of 1 inch to 1 mile is used. Editions are not issued, but sun-print copies are produced in response to special calls addressed to the Disbursing Clerk, Post Office Department, Washington, D. C. These maps should not be confused with the post route maps, for which see Monthly catalogue for February, 1923, page 528.

Regulations, Veterans' Bureau, 1923; [prepared in Legal Division]. 1923. iv+189 p. † 23—26881

NOTE.—This codification of regulations includes all Treasury decisions, Bureau of War Risk Insurance regulations, and such other of Bureau of War Risk Insurance issues as are in the nature of regulations, and all Veterans' Bureau regulations and other orders in the nature of regulations as were in effect at the date of the adoption of the code, June 1, 1923. From time to time cumulative indices will be issued. It is also contemplated that a check system to verify the substitution of pages containing amendments will be instituted, so that the field officers will always be in a position to verify that the regulations as appearing in the field books are the latest issued on any given subject.

Army regulations. †

NOTE.—The Army regulations are issued in pamphlet form for insertion in loose-leaf binders. The names of such of the more important administrative subjects as may seem appropriate, arranged in proper sequence, are numbered in a single series and each name so numbered constitutes the title and number of a pamphlet containing certain administrative regulations pertaining thereto. Where more than one pamphlet is required for the administrative regulations pertaining to any such title, additional pamphlets will be issued in a separate sub-series.

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Charts of the Great Lakes and connecting waters and St. Lawrence River to the international boundary at St. Regis, of Lake Champlain, and of the New York State canals are prepared and sold by the U. S. Lake Survey Office, Old Custom-house, Detroit, Mich. Charts may also be purchased at the following U. S. engineer offices: 710 Army Building, New York, N. Y.; 467 Broadway, Albany, N. Y.; 540 Federal Building, Buffalo, N. Y.; and Canal Office, Sault Ste. Marie, Mich. A catalogue (with index map), showing localities, scales, prices, and conditions of sale, may be had upon application at any of these offices.

A descriptive bulletin, which supplements the charts and gives detailed information as to harbors, shore lines and shoals, magnetic determinations, and particulars of changing conditions affecting navigation, is issued free to chart purchasers, upon request. The bulletin is revised annually and issued at the opening of navigation (in April), and supplements thereto are published monthly during the navigation season.

Complete sets of the charts and publications may be seen at the U. S. engineer offices in Duluth, Minn., Milwaukee, Wis., Chicago, Ill., Grand Rapids, Mich., Cleveland, Ohio, and Oswego, N. Y., but they are obtainable only at the sales offices above mentioned.

*Document for sale by Superintendent of Documents.

†Distribution by office issuing document, free if unaccompanied by a price.

‡Printed for official use.

NOTE.—Nearly all of the Departments of the Government make a limited free distribution of their publications. When an entry shows a * price, it is possible that upon application to the issuing office a copy may be obtained without charge.

Explanation

Words and figures inclosed in brackets [] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

SALES OF GOVERNMENT PUBLICATIONS

The Superintendent of Documents, Washington, D. C., is authorized to sell at cost of paper and printing, plus 10 per cent, any United States public document in his charge the distribution of which is not otherwise provided for.

Publications can not be supplied free to individuals nor forwarded in advance of payment.

Publications entered in this catalogue that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document. A double dagger (‡) indicates that the document is printed for official use. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the Bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing Department, Bureau, or Division, and the title of the publication. If the publication is numbered, give the number also. Every such particular assists in quick identification. Do not order by the Library of Congress card number.

The accumulation of publications in this Office amounts to several millions, of which over two million are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shop-worn. In filling orders the best copy available is sent. A general price-list of public documents is not available, but lists on special subjects will be furnished on application.

MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to each Senator, Representative, Delegate, Resident Commissioner, and officer in Congress; to designated depositories and State and Territorial libraries if it is selected by them; to substantially all Government authors; and to as many school, college, and public libraries as the limited edition will supply.

Subscription price to individuals, 50c. a year, including index; foreign subscription, 75c. a year. Back numbers can not be supplied. Notify the Superintendent of Documents of any change of address.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalogue cards of the Library of Congress are given at the end of entries for the more important documents. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Librarian of Congress, *not* to the Superintendent of Documents.

INDEX

An Index to the Monthly catalogue is issued at the end of the fiscal year. This contains index entries for all the numbers issued from July to June, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalogue at the end of the year should be careful to retain the numbers received monthly, as duplicate copies can not be supplied.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the **Superintendent of Documents, Washington, D. C.**, by coupons, postal money order, express order, or New York draft. Currency may be sent at sender's risk.

Postage stamps, foreign money, defaced or smooth coins, positively will not be accepted.

For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his Office in sets of 20 for \$1.00. Address order to Superintendent of Documents, Government Printing Office.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Porto Rico, Samoa, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of Annual reports, Monographs, Professional papers, Bulletins, Water-supply papers, chapters and volumes of Mineral resources of the United States, folios of the Topographic atlas of the United States and topographic maps that bear descriptive text, and folios of the Geologic atlas of the United States and the World atlas of commercial geology. The Monographs, folios, and maps are sold. Other publications are generally free as long as the Survey's supply lasts. Copies are also sold by the Superintendent of Documents, Washington, D. C., at the prices indicated. For maps and folios address the Director of the Geological Survey, Washington, D. C. A discount of 40 per cent is allowed on any order for maps or folios that amounts to \$5.00 or more at the retail price. This discount applies to an order for either maps or folios alone or for maps and folios together but is not allowed on a few folios that are sold at 5c. each on account of damage by fire. Orders for other publications that are for sale should be sent to the Superintendent of Documents, Washington, D. C. For topographic maps see p. 232.

Topographic maps

NOTE.—The Geological Survey is making a topographic map of the United States. The individual maps of which it is composed are projected without reference to political divisions, and each map is designated by the name of some prominent town or natural feature in the area mapped. Three scales are ordinarily used, 1:62,500, 1:125,000, and 1:250,000. These correspond, approximately, to 1 mile, 2 miles, and 4 miles to 1 linear inch, covering, respectively, average areas of 230, 920, and 3,700 square miles. For some areas of particular importance special large-scale maps are published. The usual size, exclusive of the margin, is 17.5 inches in height by 11.5 to 16 inches in width, the width varying with the latitude. The sheets measure 20 by 16½ inches. A description of the topographic map is printed on the reverse of each sheet.

More than two-fifths of the area of the country, excluding Alaska, has been mapped, every State being represented. Connecticut, Delaware, the District of Columbia, Maryland, Massachusetts, New Jersey, Ohio, Rhode Island, and West Virginia are completely mapped. Maps of the regular size are sold by the Survey at 10c. each, but a discount of 40 per cent is allowed on any order which amounts to \$5.00 or more at the retail price. The discount is allowed on an order for either maps or folios alone or for maps and folios together, but does not apply to a few folios that are sold at 5c. each on account of damage by fire.

SPECIAL ARTICLES.—Estimated annual number and cost of industrial accidents in United States; by Carl Hookstadt.—Present economic situation of German student body; by E. Boehler.—Analysis of Mexican State laws on wages and hours of labor, and employment of women and children; by John Ritchie, 3d.—Conciliation work of Department of Labor, Sept. 1923; by Hugh L. Kerwin.—Statistics of immigration, July-Aug. 1923; by W. W. Husband.

NOTE.—The Review is the medium through which the Bureau publishes the results of original investigations too brief for bulletin purposes, notices of labor legislation by the States or by Congress, and Federal court decisions affecting labor, which from their importance should be given attention before they could ordinarily appear in the bulletins devoted to these subjects. One free subscription will be given to all labor departments and bureaus, workmen's compensation commissions, and other offices connected with the administration of labor laws and organizations exchanging publications with the Labor Statistics Bureau. Others desiring copies may obtain them from the Superintendent of Documents, Washington, D. C., at the prices stated above.

TOPOGRAPHY DIVISION

NOTE.—Since February, 1908, the Topography Division has been preparing rural-delivery maps of counties in which rural delivery is completely established. They are published in two forms, one giving simply the rural free delivery routes, starting from a single given post office, sold at 10 cents each; the other, the rural free delivery routes in an entire county, sold at 35 cents each. A uniform scale of 1 inch to 1 mile is used. Editions are not issued, but sun-print copies are produced in response to special calls addressed to the Disbursing Clerk, Post Office Department, Washington, D. C. These maps should not be confused with the post route maps, for which see Monthly catalogue for February, 1923, page 528.

* Document for sale by Superintendent of Documents.

† Distribution by office issuing document, free if unaccompanied by a price.

‡ Printed for official use.

NOTE.—Nearly all of the Departments of the Government make a limited free distribution of their publications. When an entry shows a * price, it is possible that upon application to the issuing office a copy may be obtained without charge.

Explanation

Words and figures inclosed in brackets [] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

SALES OF GOVERNMENT PUBLICATIONS

The Superintendent of Documents, Washington, D. C., is authorized to sell at cost, plus 10 per cent, without limit as to the number of copies to any one applicant who agrees not to resell or distribute the same for profit, any United States Government publication not confidential in character.

Publications can not be supplied free to individuals nor forwarded in advance of payment.

Publications entered in this catalogue that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document. A double dagger (‡) indicates that the document is printed for official use. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the Bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing Department, Bureau, or Division, and the title of the publication. If the publication is numbered, give the number also. Every such particular assists in quick identification. Do not order by the Library of Congress card number.

The accumulation of publications in this Office amounts to several millions, of which over two million are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shop-worn. In filling orders the best copy available is sent. A general price-list of public documents is not available, but lists on special subjects will be furnished on application.

MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to each Senator, Representative, Delegate, Resident Commissioner, and officer in Congress; to designated depositories and State and Territorial libraries if it is selected by them; to substantially all Government authors; and to as many school, college, and public libraries as the limited edition will supply.

Subscription price to individuals, 50c. a year, including index; foreign subscription, 75c. a year. Back numbers can not be supplied. Notify the Superintendent of Documents of any change of address.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalogue cards of the Library of Congress are given at the end of entries for the more important documents. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Librarian of Congress, *not* to the Superintendent of Documents.

INDEX

An Index to the Monthly catalogue is issued at the end of the fiscal year. This contains index entries for all the numbers issued from July to June, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalogue at the end of the year should be careful to retain the numbers received monthly, as duplicate copies can not be supplied.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, Washington, D. C., by coupons, postal money order, express order, or New York draft. Currency may be sent at sender's risk.

Postage stamps, foreign money, defaced or smooth coins, positively will not be accepted.

For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his Office in sets of 20 for \$1.00. Address order to Superintendent of Documents, Government Printing Office, Washington, D. C.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Porto Rico, Samoa, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of Annual reports, Monographs, Professional papers, Bulletins, Water-supply papers, chapters and volumes of Mineral resources of the United States, folios of the Topographic atlas of the United States and topographic maps that bear descriptive text, and folios of the Geologic atlas of the United States and the World atlas of commercial geology. The Monographs, folios, and maps are sold. Other publications are generally free as long as the Survey's supply lasts. Copies are also sold by the Superintendent of Documents, Washington, D. C. at the prices indicated. For maps and folios address the Director of the Geological Survey, Washington, D. C. A discount of 40 per cent is allowed on any order for maps or folios that amounts to \$5.00 or more at the retail price. This discount applies to an order for either maps or folios alone or for maps and folios together but is not allowed on a few folios that are sold at 5c. each on account of damage by fire. Orders for other publications that are for sale should be sent to the Superintendent of Documents, Washington, D. C. For topographic maps see next page.

Topographic maps

NOTE.—The Geological Survey is making a topographic map of the United States. The individual maps of which it is composed are projected without reference to political divisions, and each map is designated by the name of some prominent town or natural feature in the area mapped. Three scales are ordinarily used, 1: 62,500, 1: 125,000, and 1: 250,000. These correspond, approximately, to 1 mile, 2 miles, and 4 miles to 1 linear inch, covering, respectively, average areas to 230, 920, and 3,700 square miles. For some areas of particular importance special large-scale maps are published. The usual size, exclusive of the margin, is 17.5 inches in height by 11.5 to 16 inches in width, the width varying with the latitude. The sheets measure 20 by 16½ inches. A description of the topographic map is printed on the reverse of each sheet.

More than two-fifths of the area of the country, excluding Alaska, has been mapped, every State being represented. Connecticut, Delaware, the District of Columbia, Maryland, Massachusetts, New Jersey, Ohio, Rhode Island, and West Virginia are completely mapped. Maps of the regular size are sold by the Survey at 10c. each, but a discount of 40 per cent is allowed on any order which amounts to \$5.00 or more at the retail price. The discount is allowed on an order for either maps or folios alone or for maps and folios together, but does not apply to a few folios that are sold at 5c. each on account of damage by fire.

Bowen.—Conciliation work of Department of Labor, Oct. 1923; by Hugh L. Kerwin.—Statistics of immigration, Sept. 1923; by W. W. Husband.

NOTE.—The Review is the medium through which the Bureau publishes the results of original investigations too brief for bulletin purposes, notices of labor legislation by the States or by Congress, and Federal court decisions affecting labor, which from their importance should be given attention before they could ordinarily appear in the bulletins devoted to these subjects. One free subscription will be given to all labor departments and bureaus, workmen's compensation commissions, and other offices connected with the administration of labor laws and organizations exchanging publications with the Labor Statistics Bureau. Others desiring copies may obtain them from the Superintendent of Documents, Washington, D. C., at the prices stated above.

TOPOGRAPHY DIVISION

NOTE.—Since February, 1908, the Topography Division has been preparing rural-delivery maps of counties in which rural delivery is completely established. They are published in two forms, one giving simply the rural free delivery routes, starting from a single given post office, sold at 10 cents each; the other, the rural free delivery routes in an entire county, sold at 35 cents each. A uniform scale of 1 inch to 1 mile is used. Editions are not issued, but sun-print copies are produced in response to special calls addressed to the Disbursing Clerk, Post Office Department, Washington, D. C. These maps should not be confused with the post route maps, for which see Monthly catalogue for February, 1923, page 528.

SMITHSONIAN INSTITUTION

NOTE.—In a recent price-list the Smithsonian Institution publishes this notice: "Applicants for the publications in this list are requested to state the grounds of their requests, as the Institution is able to supply papers only as an aid to the researches or studies in which they are especially interested. These papers are distributed *gratis*, except as otherwise indicated, and should be ordered by the *publication numbers* arranged in sequence. The serial publications of the Smithsonian Institution are as follows: 1, Smithsonian contributions to knowledge; 2, Smithsonian miscellaneous collections; 3, Smithsonian annual reports. No *sets* of these are for sale or distribution, as most of the volumes are out of print. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are distributed without charge to public libraries, educational establishments, learned societies, and specialists in this country and abroad; and are supplied to other institutions and individuals at the prices indicated. Remittances should be made payable to the 'Smithsonian Institution.' The Smithsonian report volumes and the papers reprinted in separate form therefrom are distributed *gratuitously* by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but many of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington, D. C. The Institution maintains mailing-lists of public libraries and other educational establishments, but no *general mailing-list of individuals*. A library making application to be listed for Smithsonian publications should state the number of volumes which it contains and the date of its establishment, and have the endorsement of a Member of Congress."

The annual reports are the only Smithsonian publications that are regularly issued as public documents. All the others are paid for from the private funds of the Institution, but as they are usually regarded as public documents and have free transmission by mail they are listed in the Monthly catalogue.

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Charts of the Great Lakes and connecting waters and St. Lawrence River to the international boundary at St. Regis, of Lake Champlain, and of the New York State canals are prepared and sold by the U. S. Lake Survey Office, Old Custom-house, Detroit, Mich. Charts may also be purchased at the following U. S. engineer offices: 710 Army Building, New York, N. Y.; 467 Broadway, Albany, N. Y.; 540 Federal Building, Buffalo, N. Y.; and Canal Office, Sault Ste. Marie, Mich. A catalogue (with index map), showing localities, scales, prices, and conditions of sale, may be had upon application at any of these offices.

A descriptive bulletin, which supplements the charts and gives detailed information as to harbors, shore lines and shoals, magnetic determinations, and particulars of changing conditions affecting navigation, is issued free to chart purchasers, upon request. The bulletin is revised annually and issued at the opening of navigation (in April), and supplements thereto are published monthly during the navigation season.

Complete sets of the charts and publications may be seen at the U. S. engineer offices in Duluth, Minn., Milwaukee, Wis., Chicago, Ill., Grand Rapids, Mich., Cleveland, Ohio, and Oswego, N. Y., but they are obtainable only at the sales offices above mentioned.

Words and figures inclosed in brackets [] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

SALES OF GOVERNMENT PUBLICATIONS

The Superintendent of Documents, Washington, D. C., is authorized to sell at cost, plus 10 per cent, without limit as to the number of copies to any one applicant who agrees not to resell or distribute the same for profit, any United States Government publication not confidential in character.

Publications can not be supplied free to individuals nor forwarded in advance of payment.

Publications entered in this catalogue that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document. A double dagger (§) indicates that the document is printed for official use. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the Bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing Department, Bureau, or Division, and the title of the publication. If the publication is numbered, give the number also. Every such particular assists in quick identification. Do not order by the Library of Congress card number.

The accumulation of publications in this Office amounts to several millions, of which over two million are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shop-worn. In filling orders the best copy available is sent. A general price-list of public documents is not available, but lists on special subjects will be furnished on application.

MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to each Senator, Representative, Delegate, Resident Commissioner, and officer in Congress; to designated depositories and State and Territorial libraries if it is selected by them; to substantially all Government authors; and to as many school, college, and public libraries as the limited edition will supply.

Subscription price to individuals, 50c. a year, including index; foreign subscription, 75c. a year. Back numbers can not be supplied. Notify the Superintendent of Documents of any change of address.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalogue cards of the Library of Congress are given at the end of entries for the more important documents. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Librarian of Congress, *not* to the Superintendent of Documents.

INDEX

An Index to the Monthly catalogue is issued at the end of the fiscal year. This contains index entries for all the numbers issued from July to June, and can be

bound with the numbers as an index to the volume. Persons desiring to bind the catalogue at the end of the year should be careful to retain the numbers received monthly, as duplicate copies can not be supplied.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the **Superintendent of Documents, Washington, D. C.**, by coupons, postal money order, express order, or New York draft. Currency may be sent at sender's risk.

Postage stamps, foreign money, defaced or smooth coins, positively will not be accepted.

For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his Office in sets of 20 for \$1.00. Address order to Superintendent of Documents, Government Printing Office, Washington, D. C.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Porto Rico, Samoa, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of Annual reports, Monographs, Professional papers, Bulletins, Water-supply papers, chapters and volumes of Mineral resources of the United States, folios of the Topographic atlas of the United States and topographic maps that bear descriptive text, and folios of the Geologic atlas of the United States and the World atlas of commercial geology. The Monographs, folios, and maps are sold. Other publications are generally free as long as the Survey's supply lasts. Copies are also sold by the Superintendent of Documents, Washington, D. C., at the prices indicated. For maps and folios address the Director of the Geological Survey, Washington, D. C. A discount of 40 per cent is allowed on any order for maps or folios that amounts to \$5.00 or more at the retail price. This discount applies to an order for either maps or folios alone or for maps and folios together but is not allowed on a few folios that are sold at 5c. each on account of damage by fire. Orders for other publications that are for sale should be sent to the Superintendent of Documents, Washington, D. C. For topographic maps see next page.

Topographic maps

NOTE.—The Geological Survey is making a topographic map of the United States. The individual maps of which it is composed are projected without reference to political divisions, and each map is designated by the name of some prominent town or natural feature in the area mapped. Three scales are ordinarily used, 1:62,500, 1:125,000, and 1:250,000. These correspond, approximately, to 1 mile, 2 miles, and 4 miles to 1 linear inch, covering, respectively, average areas of 230, 920, and 3,700 square miles. For some areas of particular importance special large-scale maps are published. The usual size, exclusive of the margin, is 17.5 inches in height by 11.5 to 16 inches in width, the width varying with the latitude. The sheets measure 20 by 16½ inches. A description of the topographic map is printed on the reverse of each sheet.

More than two-fifths of the area of the country, excluding Alaska, has been mapped, every State being represented. Connecticut, Delaware, the District of Columbia, Maryland, Massachusetts, New Jersey, Ohio, Rhode Island, and West Virginia are completely mapped. Maps of the regular size are sold by the Survey at 10c. each, but a discount of 40 per cent is allowed on any order which amounts to \$5.00 or more at the retail price. The discount is allowed on an order for either maps or folios alone or for maps and folios together, but does not apply to a few folios that are sold at 5c. each on account of damage by fire.

SMITHSONIAN INSTITUTION

NOTE.—In a recent price-list the Smithsonian Institution publishes this notice: "Applicants for the publications in this list are requested to state the grounds of their requests, as the Institution is able to supply papers only as an aid to the researches or studies in which they are especially interested. These papers are distributed *gratis*, except as otherwise indicated, and should be ordered by the *publication numbers* arranged in sequence. The serial publications of the Smithsonian Institution are as follows: 1, Smithsonian contributions to knowledge; 2, Smithsonian miscellaneous collections; 3, Smithsonian annual reports. No sets of these are for sale or distribution, as most of the volumes are out of print. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are distributed without charge to public libraries, educational establishments, learned societies, and specialists in this country and abroad; and are supplied to other institutions and individuals at the prices indicated. Remittances should be made payable to the 'Smithsonian Institution.' The Smithsonian report volumes and the papers reprinted in separate form therefrom are distributed *gratuitously* by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but many of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington, D. C. The Institution maintains mailing-lists of public libraries and other educational establishments, but no *general mailing-list of individuals*. A library making application to be listed for Smithsonian publications should state the number of volumes which it contains and the date of its establishment, and have the endorsement of a Member of Congress."

The annual reports are the only Smithsonian publications that are regularly issued as public documents. All the others are paid for from the private funds of the Institution, but as they are usually regarded as public documents and have free transmission by mail they are listed in the Monthly catalogue.

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Charts of the Great Lakes and connecting waters and St. Lawrence River to the international boundary at St. Regis, of Lake Champlain, and of the New York State canals are prepared and sold by the U. S. Lake Survey Office, Old Custom-house, Detroit, Mich. Charts may also be purchased at the following U. S. engineer offices: 710 Army Building, New York, N. Y.; 467 Broadway, Albany, N. Y.; 540 Federal Building, Buffalo, N. Y.; and Canal Office, Sault Ste. Marie, Mich. A catalogue (with index map), showing localities, scales, prices, and conditions of sale, may be had upon application at any of these offices.

A descriptive bulletin, which supplements the charts and gives detailed information as to harbors, shore lines and shoals, magnetic determinations, and particulars of changing conditions affecting navigation, is issued free to chart purchasers, upon request. The bulletin is revised annually and issued at the opening of navigation (in April), and supplements thereto are published monthly during the navigation season.

Complete sets of the charts and publications may be seen at the U. S. engineer offices in Duluth, Minn., Milwaukee, Wis., Chicago, Ill., Grand Rapids, Mich., Cleveland, Ohio, and Oswego, N. Y., but they are obtainable only at the sales offices above mentioned.

*Document for sale by Superintendent of Documents.

†Distribution by office issuing document, free if unaccompanied by a price.

‡Printed for official use.

NOTE.—Nearly all of the Departments of the Government make a limited free distribution of their publications. When an entry shows a * price, it is possible that upon application to the issuing office a copy may be obtained without charge.

Explanation

Words and figures inclosed in brackets [] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

SALES OF GOVERNMENT PUBLICATIONS

The Superintendent of Documents, Washington, D. C., is authorized to sell at cost, plus 10 per cent, without limit as to the number of copies to any one applicant who agrees not to resell or distribute the same for profit, any United States Government publication not confidential in character.

Publications can not be supplied free to individuals nor forwarded in advance of payment.

Publications entered in this catalogue that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document. A double dagger (‡) indicates that the document is printed for official use. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the Bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing Department, Bureau, or Division, and the title of the publication. If the publication is numbered, give the number also. Every such particular assists in quick identification. Do not order by the Library of Congress card number.

The accumulation of publications in this Office amounts to several millions, of which over two million are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shop-worn. In filling orders the best copy available is sent. A general price-list of public documents is not available, but lists on special subjects will be furnished on application.

MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to each Senator, Representative, Delegate, Resident Commissioner, and officer in Congress; to designated depositories and State and Territorial libraries if it is selected by them; to substantially all Government authors; and to as many school, college, and public libraries as the limited edition will supply.

Subscription price to individuals, 50c. a year, including index; foreign subscription, 75c. a year. Back numbers can not be supplied. Notify the Superintendent of Documents of any change of address.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalogue cards of the Library of Congress are given at the end of entries for the more important documents. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Librarian of Congress, *not* to the Superintendent of Documents.

INDEX

An Index to the Monthly catalogue is issued at the end of the fiscal year. This contains index entries for all the numbers issued from July to June, and can be

bound with the numbers as an index to the volume. Persons desiring to bind the catalogue at the end of the year should be careful to retain the numbers received monthly, as duplicate copies can not be supplied.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the **Superintendent of Documents, Washington, D. C.**, by coupons, postal money order, express order, or New York draft. Currency may be sent at sender's risk.

Postage stamps, foreign money, defaced or smooth coins, positively will not be accepted.

For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his Office in sets of 20 for \$1.00. Address order to Superintendent of Documents, Government Printing Office, Washington, D. C.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Porto Rico, Samoa, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

Topographic maps

NOTE.—The Geological Survey is making a topographic map of the United States. The individual maps of which it is composed are projected without reference to political divisions, and each map is designated by the name of some prominent town or natural feature in the area mapped. Three scales are ordinarily used, 1:62,500, 1:125,000, and 1:250,000. These correspond, approximately, to 1 mile, 2 miles, and 4 miles to 1 linear inch, covering, respectively, average areas of 230, 920, and 3,700 square miles. For some areas of particular importance special large-scale maps are published. The usual size, exclusive of the margin, is 17.5 inches in height by 11.5 to 16 inches in width, the width varying with the latitude. The sheets measure 20 by 16½ inches. A description of the topographic map is printed on the reverse of each sheet.

More than two-fifths of the area of the country, excluding Alaska, has been mapped, every State being represented. Connecticut, Delaware, the District of Columbia, Maryland, Massachusetts, New Jersey, Ohio, Rhode Island, and West Virginia are completely mapped. Maps of the regular size are sold by the Survey at 10c. each, but a discount of 40 per cent is allowed on any order which amounts to \$5.00 or more at the retail price. The discount is allowed on an order for either maps or folios alone or for maps and folios together, but does not apply to a few folios that are sold at 5c. each on account of damage by fire.

TOPOGRAPHY DIVISION

NOTE.—Post route maps corrected to Jan. 1 will be distributed in February to the postal service. For a list of the maps composing the set, with prices, see below. Orders for the maps should be addressed to the Disbursing Clerk, Post Office Department, Washington, D. C., and money orders should be made payable to him.

Since February, 1908, the Topography Division has been preparing rural-delivery maps of counties in which rural-delivery is completely established. They are published in two forms, one giving simply the rural free delivery routes starting from a single given post office, sold at 10 cents each; the other, the rural free delivery routes in an entire county, sold at 35 cents each. A uniform scale of 1 inch to 1 mile is used. Editions are not issued, but sun-print copies are produced in response to special calls addressed to the Disbursing Clerk, Post Office Department, Washington, D. C. These maps should not be confused with the post route maps described in the preceding paragraph.

NOTE.—In a recent price-list the Smithsonian Institution publishes this notice: "Applicants for the publications in this list are requested to state the grounds of their requests, as the Institution is able to supply papers only as an aid to the researches or studies in which they are especially interested. These papers are distributed *gratis*, except as otherwise indicated, and should be ordered by the *publication numbers* arranged in sequence. The serial publications of the Smithsonian Institution are as follows. 1, Smithsonian contributions to knowledge; 2, Smithsonian miscellaneous collections; 3, Smithsonian annual reports. No sets of these are for sale or distribution, as most of the volumes are out of print. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are distributed without charge to public libraries, educational establishments, learned societies, and specialists in this country and abroad; and are supplied to other institutions and individuals at the prices indicated. Remittances should be made payable to the 'Smithsonian Institution.' The Smithsonian report volumes and the papers reprinted in separate form therefrom are distributed *gratuitously* by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but many of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington, D. C. The Institution maintains mailing-lists of public libraries and other educational establishments, but no *general mailing-list of individuals*. A library making application to be listed for Smithsonian publications should state the number of volumes which it contains and the date of its establishment, and have the endorsement of a Member of Congress."

The annual reports are the only Smithsonian publications that are regularly issued as public documents. All the others are paid for from the private funds of the Institution, but as they are usually regarded as public documents and have free transmission by mail they are listed in the Monthly catalogue.

*Document for sale by Superintendent of Documents.

†Distribution by office issuing document, free if unaccompanied by a price.

‡Printed for official use.

NOTE.—Nearly all of the Departments of the Government make a limited free distribution of their publications. When an entry shows a * price, it is possible that upon application to the issuing office a copy may be obtained without charge.

Explanation

Words and figures inclosed in brackets [] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

SALES OF GOVERNMENT PUBLICATIONS

The Superintendent of Documents, Washington, D. C., is authorized to sell at cost, plus 10 per cent, without limit as to the number of copies to any one applicant who agrees not to resell or distribute the same for profit, any United States Government publication not confidential in character.

Publications can not be supplied free to individuals nor forwarded in advance of payment.

Publications entered in this catalogue that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document. A double dagger (§) indicates that the document is printed for official use. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the Bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing Department, Bureau, or Division, and the title of the publication. If the publication is numbered, give the number also. Every such particular assists in quick identification. Do not order by the Library of Congress card number.

The accumulation of publications in this Office amounts to several millions, of which over two million are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shop-worn. In filling orders the best copy available is sent. A general price-list of public documents is not available, but lists on special subjects will be furnished on application.

MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to each Senator, Representative, Delegate, Resident Commissioner, and officer in Congress; to designated depositories and State and Territorial libraries if it is selected by them; to substantially all Government authors; and to as many school, college, and public libraries as the limited edition will supply.

Subscription price to individuals, 50c. a year, including index; foreign subscription, 75c. a year. Back numbers can not be supplied. Notify the Superintendent of Documents of any change of address.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalogue cards of the Library of Congress are given at the end of entries for the more important documents. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Librarian of Congress, *not* to the Superintendent of Documents.

INDEX

An Index to the Monthly catalogue is issued at the end of the fiscal year. This contains index entries for all the numbers issued from July to June, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalogue at the end of the year should be careful to retain the numbers received monthly, as duplicate copies can not be supplied.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, Washington, D. C., by coupons, postal money order, express order, or New York draft. Currency may be sent at sender's risk.

Postage stamps, foreign money, defaced or smooth coins, positively will not be accepted.

For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his Office in sets of 20 for \$1.00. Address order to Superintendent of Documents, Government Printing Office, Washington, D. C.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Porto Rico, Samoa, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

NOTE.—Realizing that current statistics are highly perishable and that to be of use they must reach the business man at the earliest possible moment, the Department has arranged to distribute advance leaflets twice each month to those subscribers who request them. One set of these leaflets is issued about the 20th of the month, giving such information as has been received up to that time, and another set of sheets is mailed at the end of the month giving those figures received since the 20th. The information contained in these leaflets is also published in Commerce reports issued weekly by the Foreign and Domestic Commerce Bureau. The advance sheets will be mailed free of charge to all subscribers to the Survey who request them. Such requests should be addressed to the Bureau of the Census, Department of Commerce, Washington, D. C. Subscriptions, however, should be sent to the Superintendent of Documents, Washington, D. C., at the prices stated above.
